Introducing the Fine Line Railroad Theme Program

Railroad Theme Art and Decorative Product Sales:

Engravings, Presentations, Gifts and Souvenirs; e.g. Berkompas Steam Locomotive drawing conversions; Railroad Herald; Railroad Clipart; Object photo, print and drawing conversions (diesel locomotives, buildings, miscellaneous art, etc.); and commissioned custom items.

Decorative Fixtures and Furnishings; Address Plaques, Game Boards, Tabletops, Coat Racks (with tie spikes), Key Holders (with date nails), Picture and Display Frames, Display Cases and Racks, etc.

Restoration, Preservation and Heritage Support Program:

Fine Line Enterprise has established a program of *Defined Amount Support Donations* from the sales proceeds of specifically identified products. The *beneficiaries are: The National Railway Historical Society (Railway Heritage Grants Program); and Recipient Organizations* respectively dedicated to, or associated with, the restoration, preservation, display or history of the specific subject of the particular Fine Line product. The Fine Line product may feature a locomotive, Railroad, building or other subject. The *Recipient Organizations* and the purpose of the donation will be identified and described to the purchaser of each eligible Fine Line product. For each presentation made on reclaimed re-sawn railroad tie plaques, or other reclaimed materials an additional donation will be made to PERC. The Property and Environmental Research Center (PERC) is an organization dedicated to promoting market-based solutions to environmental problems.

Client Promotion and Fulfillment (P&F) Services:

Organizations and individuals selecting Fine Line Products for general sales or fund raising projects may choose to utilize one or more of our P&F services. These services may include:

- Design, Development and Production of exclusive client products;
- Internet placement, web-site integration and internet support;
- Project planning and advertising support;
- Warehousing and distribution support;
- Mailing list implementation, and customer data base development;
- Packaging, direct shipment and collection options;
- A zero inventory transaction based cost and pricing option;
- A quantity based wholesale pricing option; Sales and distribution reporting;
